VALVE WORLD EXPO & CONFERENCE 2022

Join the knowledge & networking experience!

Be a part of the world's premier global valve event and network with the leading minds driving ahead innovation and excellence in the fields of valve manufacture, use and maintenance. Valve World conference & exhibition is a dynamic and interactive event with a strong focus on personal interaction. The high quality conference has an emphasis on practical, applicable knowledge sharing. Not only will you gain knowledge and improve your skills, you'll also expand your professional network for years to come!

Brand new venue

The Valve World Conference 2022 will be hosted in the newly-built Hall 1 at the Messe Düsseldorf. The spacious rooms and the state-of-the-art AV-technology will guarantee a relaxed and informative conference experience. The conference rooms are situated on the first floor and are located above the main entrance.

Valve World Conference 2022 Steering Committee

- M. Al-Shiha, Saudi Aramco, Consulting Services Dept.
- Carlo de Bernardi, ConocoPhillips
- Paul Clements, BP
- Claire Dwyer, Fluor Enterprises Inc
- Alexander Hein, BASF
- Ingolf Fra Holmslet, Klyde Consultants
- Tomoharu Ishii, Kitz Corporation
- Bader Jarallah, Saudi Aramco Piping & Valves Group
- Gobind Khiani, Enbridge Pipelines
- Ayo Kilani, NLNG (Chairman)
- Ron Merrick (formerly Fluor Enterprises)
- Carl J.P. Neeskens, Ineos NV
- Ville Kähkönen, Neles
- Bruno Martin, Technip FMC
- Masayuki Ono, JGC Corporation
- Bronson Pate, Tricord Consulting
- Rodney Roth, KAR Oil and Gas Technologies
- Holger Schmidt, Areva
- Xiaolei Shi, Wison Engineering
- Marc Simoëns, Dow Benelux
- Tony Smart, (formerly Shell Global Solutions International B.V.)
- Thijs van Munster, MRC Global
- Marty van Tilburg, Sitech Services
- Thomas Wagner, Framatome
- Wojciech Zmudzinski, BP USA

Get involved in the Valve World Conference 2022!

The Valve World Conference 2022 Steering Committee invites presentations on a wide variety of topics related to valves, actuators and the flow control industry. Experts from all domains, ranging from the production/design, specification and application of valves, are invited to submit an abstract that focuses on a specific topic they would like to present during the conference. There are two options: participate in a discussion-based workshop or present in a Technical Session.

Join a workshop panel

Discussions are an integral part of the Valve World Conference. Interactive workshops facilitate discussions about relevant topics. In workshops, panelists give a short 10 minute presentation supported by 2 to 3 Power Point slides to kick-start a discussion.

If you would like to join – or lead – a workshop, please submit a 300 outline of the topic you would like to cover.

Send the abstract to
l.joppen@kci-world.com

Deadline: 31st of March 2022

Present a technical paper

Valve experts may present a paper during one of the technical paper sessions. Speakers will be allocated 15 minutes plus 5 minutes question time. Moderators will keep the time to streamline the session and ensure all speakers will get equal exposure.

If you would like to participate, please submit a 300-500 word abstract outlining the topic and content of your material to

l.joppen@kci-world.com

Deadline: 31st of March 2022

What's the difference?

- A **workshop** is discussion based and interactive, with a small panel of presenters giving short Power Points then engaging with the audience.
- A **paper session** features several speakers presenting formal technical papers, followed by a short question time.

Presentation Topics

For the 2022 event Valve World has selected a number of hot topics we would like to highlight at the conference. If your abstract ties in to these topics, you'll increase your chance to present at the Valve World Conference!

- Additive manufacturing
- Materials
- Digital solutions
- Fugitive emissions
- Valve design/selection
- Predictive maintenance
- Highly-demanding applications/severe service
- Standardisation/standards development
- Supply chain management
- Sealing/packing
- Renewable energy

The following selection criteria will apply:

- Quality of the content (neutral, informative)
- Focus on application
- Informative to a wide audience
- Tie-in with the conference's hot topics

When submitting an abstract remember to:

- Include your name
- Include your job function & company name
- Include e-mail address
- Include title of the paper
- Indicate whether you want to host a discussion-based workshop OR a technical paper session

* For enquiries about the conference programming, please contact: Lucien Joppen, conference organizer (+31 654345665/l.joppen@kci-world.com).

* For information regarding sponsoring, exhibiting possibilities or marketing opportunities on our conference brochure and the Valve World related magazine, please contact: Nicole Nagel, managing director (+49 2821 71145 55/n.nagel@kci-world.com)

Dates to Remember:

- Abstract submission deadline: 31st of March 2022
- Notification of acceptance: first week of May 2022
- Deadline for presentations: 30th of September 2022
